## About the Meeting

**Tissue, Matrix & Pathobiology** is an exciting new multidisciplinary and collaborative joint meeting of the [American Society for Matrix Biology \(ASMB\)](#), [The Histochemical Society \(HCS\)](#), and the [American Society for Investigative Pathology \(ASIP\)](#). This meeting will feature cutting edge basic, clinical, and translational research related to a variety of topics that reflect normal biology of cells and tissues, and the molecular and cellular alterations that drive disease processes and accompany the development of disease.

The program will include award lectures, plenary sessions, symposia, and workshops featuring speakers who are leaders in their respective fields of study. Abstract-driven mini-symposia and interactive poster sessions will also be programmed across the participating Societies. There will be ample opportunities for trainees and other young investigators to present their research in oral sessions. The program will also feature education and career development sessions that are focused on the needs of the current generation of trainees and young investigators. A generous scholar award program will provide travel grants for trainees and junior faculty who are members of the participating Societies.

The meeting will take place at the [Grand America Hotel](#) in downtown Salt Lake City, UT—ten minutes from the [Salt Lake City International Airport](#) (SLC) and walking distance to hundreds of restaurants. This venue provides ample and beautiful space for scientific sessions, education and career development events, and networking/social events. The Grand America has self-contained meeting space with ample room for informal socializing and discussions in proximity to the exhibit space. Exhibitors at this event will have ample opportunities for interaction with the meeting participants.

**Over 800 scientist researchers are expected at this event!**
